FORWARD-LOOKING STATEMENTS

This Draft Prospectus contains certain "forward-looking statements". All statements contained in this Draft Prospectus that are not statements of historical fact constitute "forward-looking statements". All statements regarding our expected financial condition and results of operations, business, plans and prospects are "forward-looking statements". These forward-looking statements generally can be identified by words or phrases such as "aim", "anticipate", "believe", "expect", "estimate", "intend", "likely to", "seek to", "shall", "objective", "plan", "project", "will", "will continue", "will pursue" or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements whether made by us in this Draft Prospectus are based on our current plans, estimates, presumptions and expectations and are subject to corresponding risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement, including but not limited to, regulatory changes pertaining to the industries we serve and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition. Important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- We are dependent on external suppliers for our product requirements. Any delay or failure on the part of the external suppliers to deliver products, may materially and adversely affect our business, profitability and reputation;
- We purchase inventory in anticipation of sales, and if we fail to manage our inventory effectively during that period, our business and results of operations could be adversely affected;

- We operate in a competitive industry and our market share may be adversely impacted in case we do not keep ourselves apprised of the latest consumer trends and technology and if we fail to compete effectively in the markets in which we operate;
- Our inability to promptly identify and respond to changing customer preferences or evolving trends may decrease the demand for our merchandise among our customers, which may adversely affect our business;
- The monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign; and
- The occurrence of natural disasters or calamities.

For further discussion of factors that could cause the actual results to differ from the expectations, see "**Risk Factors**", "**Our Business**" and "**Management's Discussion and Analysis of Financial Condition and Results of Operations**" on pages 24, 93 and 173, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. Any of the following risks, as well as the other risks and uncertainties discussed in this Draft prospectus, could have an adverse effect on our business, financial condition, results of operations and prospects and could cause the trading price of our Equity Shares to decline, which could result in the loss of all or a part of your investment. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial conditions and prospects.

Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this Draft Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in such risk factors. The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality:

1. Some risks may not be material individually but may be material when considered collectively.
2. Some risks may have material impact qualitatively instead of quantitatively.
3. Some risks may not be material at present but may have a material impact in the future.

INTERNAL RISK FACTORS

1. ***Our Company is dependent on external suppliers for its product requirements. Any delay or failure on the part of the external suppliers to deliver products, may materially and adversely affect our business, profitability and reputation.***

We do not manufacture any of the products we sell. The products sold by us at our stores and distribution centres are sourced from a wide variety of suppliers. In Fiscal 2021, Fiscal 2020 and Fiscal 2019, 45.41%, 42.70% and 48.91% of our total purchase amounting to ₹59,982.03 lakhs, ₹42,909.18 lakhs and ₹48,050.84 lakhs, respectively, is attributable to our top ten suppliers in such period, respectively. Any delay or failure on the part of our suppliers to deliver products in a timely manner or any deterioration in the quality of products supplied by the suppliers, may materially and adversely affect our business, profitability and reputation. Certain factors affecting supplies and thereby impeding our access to products are political and economic instability in India or political instability in certain states of India in which our suppliers are located, the financial instability of the suppliers, labour problems experienced by our suppliers, the availability of raw materials to the suppliers, merchandise quality issues, transport availability and cost, transport security, inflation, and other factors. The operations of our suppliers are further subject to various operating risks, including breakdowns and failure of equipment, industrial accidents, employee unrest, severe weather conditions, natural disasters etc. For instance, the COVID-19 pandemic impacted our suppliers' business as a result of the

nationwide lockdown imposed by the Government of India. These factors may not only result in delay of supply of products we sell but may also affect their quality. Further, the violation of or any suspected violation of labour laws or other applicable regulations by our suppliers, could also have an adverse effect on our business.

2. ***Our Company, Promoters, Promoters Group and Group Companies are party to certain litigation and claims. These legal proceedings are pending at different levels of adjudication before various courts and regulatory authorities. Any adverse decision may make us liable to liabilities/penalties and may adversely affect our reputation, business and financial status. A classification of these legal and other proceedings is given below:***

Our Company, Promoter, Directors and Group Companies are currently involved in legal proceedings in India which are pending at different levels of adjudication before the concerned authority. We cannot assure you that these proceedings will be decided in favour of our Company, Promoter, Directors or Group Companies, as the case may be. Any adverse decision in such proceedings may render us liable to penalties and may have a material adverse effect on the financials and reputation of our Company/ Promoter/ Directors/ Group Companies which may in turn have an adverse effect on our business. Additionally, during the course of our business we are subject to risk of litigation in relation to contractual obligations, employment and labour law related, personal injury, damage to property, etc.

A classification of these outstanding proceedings is given in the following table:

Nature of Cases	Number of outstanding cases	Amount Involved ₹*
<i>Litigation involving our Company</i>

*Includes TDS defaults for prior years.

For further details on the outstanding litigation proceedings, see "***Outstanding Litigation and Material Developments***" beginning on page 183 of this Draft Prospectus.

3. ***Our Registered Office, Stores, Virtual Offices, and Distribution Centres from where we operate are not owned by us.***

The Registered Office of our Company is taken on leasehold basis by our Company under the leave and license agreement dated April 1, 2022 for a monthly rent of ₹.6,00,000 and a refundable security deposit. Further, as on date of this Draft Prospectus, all of our Stores and Distribution Centres are situated on premises taken on leasehold basis against different rents and security deposits.

Our lease agreements generally being long term in nature are renewable on mutually acceptable terms and upon payment of such rent escalations as stated in lease agreements. If the lease agreements are not renewed or are renewed on terms and conditions that are unfavorable to us or we are unable to find alternate premises on commercially acceptable terms, we may suffer a disruption in our operations which could have a material adverse effect on our business and operations. Further, any adverse impact on the title or ownership rights of the landlords, may force us to vacate such premises and we would be required to make alternative arrangements, which may have an adverse effect on the costs of operation and profitability of our Company. Further, any delay or non-payment of lease rent may result in vacation of the property, which may lead to us not having access to prime properties.

Further, under the terms of the respective lease agreements, the lease period is renewable on mutually acceptable terms. Our lease agreements are neither duly stamped under the applicable Stamp Act nor registered under the Registration Act, 1908. The effect of inadequate stamping and non-registration is that the document is not admissible as evidence in legal proceedings, and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping and non-registration. In the event of any dispute arising out of such unstamped or inadequately stamped and/or unregistered lease agreements, we may not be able to effectively enforce our leasehold rights arising out of such agreements and might need to vacate the premises immediately which may have a material and adverse impact on the business of our Company. Further, our Company has been unable to trace copies of certain lease agreements and neither we, nor the Lead Manager have been able to independently verify these details in the absence of primary documentary evidence. Further, there can be no assurances that he will be able to trace the relevant documents pertaining to his educational qualifications in the future, or at all.

4. *We purchase inventory in anticipation of sales, and if we fail to manage our inventory effectively during that period, our business and results of operations could be adversely affected.*

We purchase inventory from vendors and manufacturers based on our projected sales and as such, if we fail to manage our inventory effectively, our business and results of operations may be adversely affected. In situations that the inventory does not have the stock that the customer is looking for, we face the risk of our customer opting to buy the product from our competitor. Further, any damage or destruction to our merchandising at our distribution centres or retail stores may impact our operating results. We estimate our sales based on the forecast, demand and requirements for the forthcoming season. In general, the orders are placed a few months before the actual delivery of products in the stores. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively and to maintain a full range of products at our stores. Should our supply of products be disrupted, we may not be able to procure an alternate source of supply of products in time to meet the demands of our customers, or we may not be able to procure products of equal quality or on equally competitive terms, or at all. Such disruption to supply would mean that our customer does not get the product he/she wants which would allow the customer to go to our competitors and this would materially and adversely affect our business, profitability and reputation.

5. *Our stores and distribution centres are concentrated mainly in West Bengal and Delhi, and we generate majority of our revenue from our stores in these states. Any adverse developments affecting our operations in these states could have an adverse impact on our revenue and results of operations.*

We derive majority of our revenue from sale of our product in West Bengal and Delhi. For the Fiscal 2022, our revenue from sale of our product in West Bengal and Delhi contributed to 53.44% and 32.23% of our total revenue from operations, respectively. Existing and potential competitors to our businesses in these states may increase their focus on these states, which could reduce our market share. For example, our competitors may intensify their efforts in these states to capture a larger market share by launching aggressive promotional campaigns. The concentration of our operations heightens our exposure to adverse developments related to competition, as well as economic, political, demographic and other changes, which may adversely affect our business prospects, financial conditions and results of operations. Any adverse development that affects the performance of the stores located in this state could have a material adverse effect on our business, financial condition and

results of operations.

6. ***Our inability to promptly identify and respond to changing customer preferences or evolving trends may decrease the demand for our merchandise among our customers, which may adversely affect our business.***

Our Company is primarily engaged in multi-brand retail selling as well as distribution of branded smart phones, IT hardware, software and allied accessories and services. Our success depends upon our ability to forecast, anticipate and respond to the changing customer preferences and trends in a timely manner. Though we do not design or manufacture the products that we sell in our store and only procure the same through vendors and third party manufacturers, any failure by us to understand prevailing trends or to forecast changes could result in merchandise obsolescence, thereby increasing the dead stock and loss of our brand image amongst our customers, which could have a material adverse effect on our business and results of operations. Any inability to respond to changes in consumer demands and market trends in a timely manner could have material adverse effect on our business, financial condition and results of operations.

7. ***We operate in a competitive industry and our market share may be adversely impacted in case we do not keep ourselves apprised of the latest consumer trends and technology and if we fail to compete effectively in the markets in which we operate.***

We operate in a competitive industry which is characterized by rapid shifts in consumer trends and technology and our market share may be adversely impacted at any time by the significant number of competitors in our industry that may compete more effectively than us. These frequent changes and their impact on consumer demand may result into both price and demand volatility, leading to change in the competitive scenario. Due to the expansive nature of our business, we face competition from various kinds of players including, players operating in retail, wholesale and e-commerce space. We compete with national and local department stores, independent retail stores and internet businesses that market similar lines of merchandise as us. Many of our competitors are, and many of our potential competitors may be, larger, and may have substantially greater financial, marketing and other resources and, therefore, may be able to adapt to changes in customer requirements more quickly and devote greater resources in marketing and sale of their products or adopt more aggressive pricing policies than we can. We face a variety of competitive challenges, including pricing our products to remain competitive while achieving a customer perception of comparatively higher value, anticipating and quickly responding to changing consumer demands. Similarly, some of our organized competitors may also have advantages over us on account of, more prominent locations of their stores, more efficient distribution networks, better trained employees, greater geographic reach, broader product ranges or access to a large pool of financial resources. As a result, we will need to put in efforts to create brands and propositions that will provide access to high value products and also create a customer connect to our brand identity.

8. ***We are heavily reliant on our relationships with certain online marketplaces. Disruptions to such relationships, changes in their business practices, their failure to meet payment schedules and provide timely and accurate information, or conflicts among our channels of distribution could adversely affect our business, cash flows and results of operations.***

We are heavily reliant on online marketplaces for the sale of our products. One of our major sales channels is through online marketplaces. We intend to maintain or further develop our existing relationships with online marketplaces and continue to jointly promote our brand and operations on their platforms. Due to increased collaboration and information sharing, such arrangements could render us more susceptible to various risks.

For instance, we are also responsible for collecting the damaged or defective products. In addition, the online retail channels of online marketplaces may be disrupted due to technological disruptions. Should such cancellations or disruptions occur, it may adversely impact our operation schedules and inventories.

The online marketplaces could change their business practices, such as inventory levels, or seek to modify their contractual terms. We may face the pressure to modify our trading terms if the online marketplaces and our distributors are unable or unwilling to continue observing our distribution model. Additionally, unexpected changes in inventory levels or other practices by the online marketplaces players could negatively affect our business, cash flows and results of operations.

9. ***Our business depends on the relevance of the e-commerce industry in India and our ability to effectively respond to changing user behaviour on digital platforms.***

Our online operations are subject to risks, such as negative publicity, liability for online content, and risks related to the computer systems that operate our website and related support systems, such as computer viruses and electronic break-ins or similar disruptions. In addition, certain risks beyond our control, such as governmental regulation of the internet, additional companies competing with us for online sales, online security breaches and general economic conditions specific to the internet and online commerce could have an adverse effect on our business.

For our online revenue base to grow, consumers, sellers and suppliers must continue to adopt new and alternative ways of conducting commerce, purchase goods and services and exchanging information, such as through the internet and mobile devices, and we must hence effectively respond to changing user behaviour on such digital platforms. As the development of mobile application-based e-commerce is dynamic and subject to risk of rapid disruption driven by technology innovations, we must continuously innovate to overcome the fact that potential consumers are presented with an increasingly large number of options to choose from. Such potential growth is dependent on the overall internet penetration in region in which we operate which despite recent growth, is still relatively low as compared to certain developed countries. We cannot assure you that a more technologically sophisticated and reliable fixed telecommunications network or internet infrastructure will develop that would further facilitate growth of online e-commerce in India and more particularly in region in which we operate. Should the telecommunications operators not sustain or invest in expanding and upgrading the telecommunications infrastructure in India, it may impact the of e-commerce sector adversely and consequently could adversely affect our business, cash flows and results of operations.

10. ***We presently do not own the trademark or logo under which we currently operate and if third parties infringe the trademark, logo and intellectual property that we use, our business and reputation would be adversely affected.***

In the business in which we operate, our trademarks and other intellectual property rights are our material assets and are crucial to our business operations. We depend on trademark laws and domain name protection laws to protect our logo, trade name and domain names. As on date, we have neither obtained nor made any application for the registration of our Company's logo and tradename. For further details, see the sections titled "**Government and Other Approvals**" and "**Our Business**" on pages 189 and 93, respectively of this Draft Prospectus.

We cannot assure you that the trademarks and intellectual property that we use will not be copied or obtained by third parties. In case, our trademark or logo is being used by third parties, we will be required to resort to litigation or other proceedings to enforce, protect or defend our intellectual property rights, and/or to protect the Company against third party infringements, which may be expensive and resource-consuming and might create uncertainty as to the ownership of such rights. If we are unable to adequately protect our intellectual property and other proprietary rights, our competitive position, reputation and our business could be adversely affected, as third parties may be able to commercialize and use the brand that is substantially the same as ours to compete with us.

11. ***Our Company has reported certain negative cash flows from its operating, investing and financing activities, details of which are given below. Sustained negative cash flow could impact our growth and business in the future.***

Our Company had reported certain negative cash flows from its operating, investing and financing activities in the previous years as per the restated financial statements and the same are summarized as

under:

Particulars	(₹ in Lakhs)		
	March 31, 2022	March 31, 2021	March 31, 2020
Net Cash Flow from/ (used in) Operating Activities	(842.91)	(1,196.11)	460.87
Net Cash Flow from/ (used in) Investing Activities	(282.22)	0.22	18.38
Net Cash Flow from/ (used in) Financing Activities	1,165.33	1,126.45	(411.95)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If our Company is not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

12. ***Our Promoter Group Entity and the Group Companies are engaged in the same line of business that may lead to real or potential conflicts of interest with our business which in turn may materially adversely impact our business, financial condition, results of operations and cash flows.***

Our Promoter Group Entity and the Group Companies in which our Promoters have significant influence are engaged in the same line of business and thus may potentially compete with us. Interests of such persons may conflict with the interests of our Company and they may, for business considerations or otherwise, cause us to take actions, or refrain from taking actions, in order to benefit themselves, which may conflict with the best interests of our Company or that of our other Shareholders, which in turn may materially adversely impact our business, financial condition, results of operations and cash flows.

13. ***Our Company being in the retail segment requires significant amount of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.***

The retail industry is working capital intensive and has lot of fixed expenditures for operation of stores and maintenance of inventory levels. We intend to continue growing by setting up additional stores. All these factors may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled "***Objects of the Offer***" on page 71 of the Draft Prospectus.

14. ***We may in the future face potential liabilities from lawsuits or claims from third parties, should they perceive any deficiency in the products we sell in our stores. We may also face the risk of legal proceedings initiated against our Company which may result in loss of business and reputation.***

Our Company believes in providing quality products and due care is taken to mitigate the associated risks which may happen due to factors beyond our control. We may face the risk of legal proceedings and claims being brought against us by our customers amongst others on account of sale of any defective or misbranded products. Further, we could also face liabilities should our customers face any loss or damage due to any unforeseen incident such as fire, accident, etc. in our stores, which could cause financial and other damage to our customers. This may result in lawsuits and / or claims against our Company, which may materially and adversely affect the results of our operations and may also result in loss of business and reputation.

15. ***Any failure to maintain quality of customer service, products and deal with customer complaints and to further attract and retain customers and maintain consistency in customer service could materially and adversely affect our business and operating results.***

Our business is significantly affected by the overall size of our customer base, which is determined by

our ability to provide quality customer service. We provide customer support at all stages to our customers, through e-mail and telephone support via a dedicated customer care number. If we fail to provide quality customer service, our customers may be less inclined to buy our products and services or recommend us to new customers, and may channel their purchase through our competitors. Our ability to ensure satisfactory customer experience for a large part depends on our suppliers' ability to provide high-quality products and services. Our business can also be adversely affected by customer complaints relating to the non-performance or sub-standard performance of our products, our operations, and quality of products. Failure to maintain the quality of customer services, or satisfactorily resolving customer complaints, could harm our reputation and our ability to retain existing customers and attract new customers, which may materially and adversely affect our business, financial condition, cash flows and results of operations. Further, negative customer feedback, complaints or claims against us in consumer forums or otherwise, can result in diversion of management attention and other resources, which may adversely affect our business operations.

16. *Our business is subject to cyclical volatility due to which there may be fluctuation in the sales of products which could lead to higher closing inventory position, which may adversely affect our business.*

We offer products at our stores that our consumers require, and our success is dependent on our ability to meet our consumers' requirements. The retail consumer spending is heavily dependent on the economy. Our revenue and profits may vary during different quarters of the financial year and certain periods may not be indicative of our financial position for a full financial year or future quarters or periods and may be below market expectations. Further, any unanticipated decrease in demand for our products during our peak selling period could result into higher closing inventory position, which may lead to sale and liquidation of inventory getting delayed against the trajectory under normal course of business, which could adversely affect our financial position and business operations. Fluctuations in the electronic retail market affect the inventory owned by electronic retailers, since merchandise usually must be manufactured in advance of the season and frequently before the trends are evidenced by customer purchases. In addition, the cyclical nature of the retail electronics business requires us to carry a significant amount of inventory, especially prior to peak selling periods when we build up our inventory levels.

17. *Our Company's business relies on the reliable performance of its information technology systems and any interruption or abnormality in the same may have an adverse impact on our business operations and profitability.*

Our Company utilises its information technology systems to monitor all aspects of its businesses and relies to a significant extent on such systems for the efficient operation of its business, including, the monitoring of inventory levels, the allocation of products to our stores and budget planning. Our Company also relies on third party providers for providing internet services. A downtime in services of any of these providers or if any of the softwares, hardware or applications become unavailable due to extended outages, interruptions or because they are no longer available on commercially reasonable terms, it could result in delays. Delays in order processing are reduced as our Company utilizes the physical billing procedure in case there is a downtime in the information technology systems. The physical billing procedure is subject to human errors and frauds, which may affect our reputation and profitability. Our Company's information technology systems may not always operate without interruption and may encounter temporary abnormality or become obsolete, which may affect its ability to maintain connectivity with our Stores and Distribution Centres. We cannot assure that we will be successful in developing, installing, running and migrating to new software systems or systems as required for its overall operations. Also, our Company cannot guarantee that the level of security it presently maintains is adequate or that its systems can withstand intrusions from or prevent improper usage by third parties.

Also, our computer networks may be vulnerable to unauthorised access, computer hackers, computer viruses, worms, malicious applications and other security problems caused by unauthorised access to, or improper use of, systems by third parties or employees. Although we have not experienced such attacks in the past, we cannot assure you that our security systems in place can prevent any such attacks in the future or that we will be able to handle such attacks effectively. Our Company's failure to

continue its operations without interruption due to any of these reasons may adversely affect our Company's results of operations.

18. *Reliance has been placed on declarations and an affidavit furnished by our Promoter and Directors, for details of his profile included in this Draft Prospectus.*

Our Promoter and Directors have been unable to trace copies of certain documents pertaining to their educational qualifications and experience. Accordingly, reliance has been placed on an affidavit furnished by them to disclose such details in this Draft Prospectus and neither we, nor the Lead Manager have been able to independently verify these details in the absence of primary documentary evidence. Further, there can be no assurances that he will be able to trace the relevant documents pertaining to his educational qualifications in the future, or at all. Therefore, we cannot assure you that all or any of the information relating to the educational qualifications and experience of our Promoters and Directors in "***Our Management***" and "***Our Promoters and Promoter Group***" on page 112 and 123 respectively of this Draft Prospectus is complete, true and accurate.

19. *We require certain approvals and licenses in the ordinary course of business, some of the approvals have been expired or have not been obtained or are required to be updated with the new registered office of the Company. Any failure to successfully obtain/renew/update such registrations may adversely affect our operations, results of operations and financial condition.*

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous. Additionally, we are in the process of applying for renewal of certain approvals, licenses, registrations and permits, which expire or need to update pursuant to change of the address of the Registered Office of the Company. For instance, our Company has applied for a change in the address of the registered office in the Registration of Certificate issued for the Employee's Provident Fund bearing number WBCAL0044474000, which is currently pending before the relevant authority. However, our Company is unable to trace the copy of application made in this respect, and neither we, nor the Lead Manager have been able to independently verify these details in the absence of primary documentary evidence. Further, there can be no assurances that we will be able to trace the relevant documents pertaining to his educational qualifications in the future, or at all.

While we have obtained a significant number of approvals, we are yet to apply for obtaining and renewing registrations under shop and establishment Act and Professional Tax Act of relevant state in which the branch offices/ stores / outlets/virtual offices/employees of our Company are situated. There can be no assurance that the relevant authority will issue an approval or renew expired approvals within the applicable time period or at all. Any delay in receipt or non-receipt of such approvals, licenses, registrations and permits could result in cost and time overrun or which could affect our related operations. Furthermore, under such circumstances, the relevant authorities may initiate penal action against us, restrain our operations, impose fines/penalties or initiate legal proceedings for our inability to renew/obtain approvals in a timely manner or at all.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavor to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are, pending renewal, see "***Government and Other Approvals***" on page 189 of this Draft Prospectus.

Furthermore, we cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

20. ***Few of the corporate records are not available and further there are certain discrepancies and non-compliances noticed in some of our corporate records relating to forms filed with the Registrar of Companies.***

Few of the corporate records such as MGT-14/Form 23 for filing of special resolution pertaining to increase of authorised share capital dated May 23, 2003, August 4, 2007 and January 27, 2018; MGT-14/Form 23 for filing of special resolution pertaining name change of the company dated November 30, 2000 and December 31, 2000; Form 2 pertaining to allotment of shares dated September 25, 1997, July 15, 1998 and March 29, 2001; form SH-4 dated October 5, 2021 are not available with the Company. Further, we do not have a few minutes of the Board meeting and shareholders' meetings held prior to 2008. We cannot assure you that the filings were made in a timely manner or at all.

Our Company has also made some clerical/typographic mistakes in minutes of the meetings or has not maintained the minutes in strict compliance of Secretarial Standards. Although no show cause notice has been issued against our Company till date in respect of above, in the event of any cognizance being taken by the concerned authorities in respect of above, actions may be taken against our Company and its directors, in which event the financials of our Company and our directors may be affected.

Our Company has also obtained financing facility for buying a few vehicles which are used for business purposes and such vehicles are hypothecated with banks. However, our Company has not registered any charge with RoC. Although no show cause notice has been issued against our Company till date in respect of above, in the event of any cognizance being taken by the concerned authorities in respect of above, actions may be taken against our Company, in which event the reputation of our Company and our directors may be affected.

Further with the intended expansion of our operations there can be no assurance that deficiencies in our internal controls and compliances will not arise, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all.

21. ***Our inability to manage losses due to fraud, employee negligence, theft or similar incidents may have an adverse impact on our profitability and our reputation.***

Our business and the industry we operate in are vulnerable to the problem of product shrinkage. Shrinkage at our stores or our distribution centre may occur through a combination of shoplifting by customer, pilferage by employees, damages, obsolescence and expiry and error in documents and transactions that go un-noticed. The retail industry also typically encounters some inventory loss on account of employee theft, shoplifting, vendor fraud, credit card fraud and general administrative error. An increase in product shrinkage levels at our existing and future stores or our warehouses may force us to install additional security and surveillance equipment, which will increase our operational costs and may have an adverse impact on our profitability.

22. ***Our Company may not be able to grow at the same rate as it has done in the previous Financial Years.***

We have experienced reasonable growth in recent periods. Even when the nation was grappling with the COVID-19 pandemic and a nationwide lockdown, our Company was able to achieve profit before tax of ₹ 314.20 lakhs in Financial Year 2021 and surpassed its last reported profit before tax of ₹ 255.86 lakhs in Financial Year 2020. Our growth strategies are subject to and involve risks and difficulties, many of which are beyond our control and, accordingly, there can be no assurance that we will be able to implement our strategy or growth plans or complete them within the budgeted cost and timelines. Further, on account of changes in market conditions, industry dynamics, changes in regulatory policies or any other relevant factors, our growth strategy and plans may undergo substantial changes and may even include limiting or foregoing growth opportunities if the situation so demands. Any inability on our part to manage our growth or implement our strategies effectively could have a material adverse effect on our business, results of operations and financial condition.

23. *Our Company has unsecured loans that may be recalled by the lenders at any time.*

Our Company has currently availed unsecured loans from certain lenders. These loans may be recalled by the lenders at any time. In the event that, any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all and this may affect our Company's liquidity. If we are unable to procure such financing, we may not have adequate working capital to maintain the desired inventory level. As a result, any such demand may materially and adversely affect our business, cash flows, financial condition and results of operations. For further details on financing arrangements entered into by our Company, see "**Financial Indebtedness**" on page 180 of this Draft Prospectus.

24. *Our Promoters have provided personal guarantees for a portion of borrowings taken by Company to secure such loans.*

Our Individual Promoters have provided personal guarantees as collateral for a portion of borrowings made by our Company. If our Company default in their repayment obligations, the guarantees extended by our Individual Promoters may be invoked and such lenders may require our Individual Promoters to discharge the balance liability of our Company, if any, and the lenders may recover the dues from personal assets of our Individual Promoters, including shares held by such Individual Promoters in our Company. In the eventuality of a default in the repayment of loans by our Company, it may divert the attention of our management and Individual Promoters towards any legal proceedings or recovery proceedings initiated in respect of such defaults by our Company. Under such circumstances, there could be an adverse impact on our business, financial condition and results of operations of our Company.

25. *We are required to comply with certain restrictive covenants under our financing agreements. Any non-compliance may lead to, amongst others, accelerated repayment schedule and suspension of further drawdowns, which may adversely affect our business, results of operations and financial conditions.*

Some of the financing arrangements entered into by us include conditions that require us to obtain respective lenders' consent prior to carrying out certain activities and entering into certain transactions. Failure to meet these conditions or obtain these consents could have significant consequences on our business and operations. These covenants vary depending on the requirements of the financial institution extending such loan and the conditions negotiated under each financing agreement. Further, certain financial covenants may also limit our ability to borrow additional money or to grant additional security or issue guarantees. Failure to meet these conditions or obtain these consents could lead to defaults, and as such, demand for repayments of outstanding indebtedness and termination of such financing agreements may materialize.

In addition, the borrowings are generally secured against some or all of our assets. Any event of default would result in the lenders enforcing their security and taking possession of the underlying properties. A number of factors (including changes in interest rates, conditions in the banking market and general economic conditions which are beyond our control) may make it difficult for our Company to obtain additional finances on attractive terms or at all. There can be no assurance that, in the event of any such acceleration, we will have sufficient resources to repay these borrowings. Failure to meet our obligations under the financing arrangements could have an adverse effect on our cash flows, business and results of operations.

26. *We have entered into and may enter into related party transactions in the future also.*

Our Company in the past has entered into Related Party Transactions and may continue to do so in future also. Our Company had entered into various transactions with our Promoters and Group Companies/ Entities. Our Company entered into such transactions at arm length price and due to easy proximity and quick execution. However, there is no assurance that we could not have obtained better and more favourable terms that our Company not entered into such related party transactions. Our Company may enter into such transactions in future also and we cannot assure that in such an event there would be no adverse effect on results of our operations. For details of transactions already

executed by our Company with our Promoters, Directors and Group Companies/Entities during last three years, please refer to the "**Related Party Transaction**" under chapter titled "**Restated Financial Information**" on page 163 of this Draft Prospectus.

27. ***In addition to normal remuneration, other benefits and reimbursement of expenses to our Promoters and Directors; they are interested to the extent of their shareholding and dividend entitlement thereon in our Company and for the transactions entered into between our Company and themselves as well as between our Company and our Group Companies/Entities.***

Our Promoters and Directors are interested in our Company to the extent of their shareholding and dividend entitlement thereon in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. Our Promoters and Directors are interested in the transactions entered into between our Company and themselves as well as between our Company and our Group Company/Entity which may be or may not be at Arms' Length Price and in Ordinary Course of Business. If the transactions are executed not on Arms' Length Price and in Ordinary Course of Business, our financial position may get affected to that extent. For details of transactions already executed by our Company with our Promoters, Directors and Group Companies/Entities during last three years, please refer to the "**Related Party Transaction**" under chapter titled "**Restated Financial Information**" on page 163 of this Draft Prospectus.

28. ***Our success depends heavily upon our Promoters, Directors and Key Managerial Personnel for their continuing services, strategic guidance and financial support. Our success depends heavily upon the continuing services of Promoters, Directors and Key Managerial Personnel who are the natural person in control of our Company***

Our Promoters and Directors have a vast experience in the field of retail business of consumer durables. They have established cordial relations with various customers and suppliers over the past several years, which have immensely benefitted our Company's current customer and supplier relations. We believe, our Promoters and Directors, who have rich experience in this industry, managing customers and handling overall businesses, has enabled us to experience growth and profitability.

We benefit from our relationship with our Promoters, Director and Key Managerial Personnel and our success depends upon their continuing services. We also depend significantly on our Directors and Key Managerial Persons for executing our day-to-day activities. The loss of any of our Promoters, Directors and Key Management Personnel, or failure to retain, recruit suitable or comparable replacements, could have an adverse effect on us. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. If we are unable to retain qualified employees at a reasonable cost, we may be unable to execute our growth strategy. For further details of our Directors and Key Managerial Personnel, please refer to the chapter titled "**Our Management**" on page 112 of this Draft Prospectus.

29. ***We have contingent liabilities on our balance sheet, as per our restated consolidated financials, as at March 31, 2022. If any of these contingent liabilities actually occur, they may adversely impact our profitability and may have a material adverse effect on our results of operations and financial condition.***

31. The Company has not provided for gratuity provision since incorporation till Fiscal ending March 31, 2021.

Our Company has not provided for gratuity provision since incorporation till Fiscal ending March 31, 2021, which has now been restated for the respective years based on the actuarial valuation report for the respective years. Under the applicable regulatory provisions, every employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the employee's length of service and salary at retirement age and every employee who has completed five years or more of service gets a gratuity on departure at 15 days salary (last drawn) for each completed year of service as per the provisions of the Payment of Gratuity Act, 1972. This may subject us to regulatory actions and/ or penalties which may adversely affect our business, financial condition and reputation.

32. We have not entered into any definitive arrangements to utilize certain portions of the Net Proceeds of the Offer. Our funding requirements and deployment of the Net Proceeds of the Offer are based on management estimates and have not been independently appraised.

We intend to use the net proceeds of the Offer for the purposes described in the section titled "**Objects of the Offer**" on page 71 of this Draft Prospectus. The objects of the Offer and our funding requirement is based on management estimates and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy, as discussed further below. Our management, in

accordance with the policies established by our Board of Directors from time to time, will have flexibility in deploying the Net Proceeds of the Offer. Based on the competitive nature of our industry, we may have to revise our business plan and/ or management estimates from time to time and consequently our funding requirements may also change. Our management estimates may differ from the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our expenditure, subject to applicable laws, and may have an adverse impact on our business, financial condition, results of operations and cash flows. Accordingly, investors in the Equity Shares will be relying on the judgment of our management regarding the application of the Net Proceeds.

33. ***While our Company will receive proceeds from the Fresh Offer, it will not receive any proceeds from the Offer for Sale.***

In addition to the Fresh Offer from which our Company will receive proceeds, the Offer includes an Offer for Sale by the Selling Shareholders. The Selling Shareholders will receive the entire proceeds from the Offer for Sale (after deducting applicable Offer Expenses) and our Company will not receive any part of such proceeds. For further details, see "*Capital Structure*" and "*Objects of the Offer*" on pages 58 and 71, respectively of this Draft Prospectus.

34. ***Our Promoters and Promoter Group will continue to retain significant shareholding in our Company after the Offer, which will allow them to exercise significant influence over us.***

After the completion of the Offer, our Promoters and Promoter Group will hold approximately 73.59% of our outstanding Equity Shares. Accordingly, our Promoters and Promoter Group will continue to exercise significant influence over our business and all matters requiring shareholders' approval, including the composition of our Board of Directors, the adoption of amendments to our certificate of incorporation, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditures. The interests of our Promoters and Promoter Group, as our Company's significant shareholders, could be different from the interests of our other Shareholders and their influence may result in change of management or control of our Company, even if such a transaction may not be beneficial to our other Shareholders.

35. ***Any inability or failure on our part to control our attrition rate or recruit fresh talent may have an adverse effect on our operations and business.***

Our success depends on our ability to attract, hire, train and retain skilled customer and sales personnel. In the retail industry, the level and quality of sales personnel and customer service are key competitive factors and an inability to recruit, train and retain suitably qualified and skilled sales personnel could adversely impact our reputation, business prospects and results of operations. Typically, the retail industry suffers from high attrition rate especially at the store level. There can be no assurance that attrition rates for our employees, will not increase. A significant increase in our employee attrition rate could also result in decreased operational efficiencies and productivity, loss of market knowledge and customer relationships, and an increase in recruitment and training costs, thereby materially and adversely affecting our business, results of operations and financial condition. We cannot assure you that we will be able to find or hire personnel with the necessary experience or expertise to operate our retail stores in our existing markets or new markets that we are entering into. In the event that we are unable to hire people with the necessary knowledge or the necessary expertise, our business may be severely disrupted, financial condition and results of operations may be adversely affected.

36. ***Our inability to procure and/or maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.***

Our operations may be subject to risks such as fire, accidents and natural disasters. We maintain customary insurance policies for our Company. Whilst we believe that we maintain adequate insurance coverage amounts for our business and operations, our insurance policies are subject to exclusions and deductibles, and may not provide adequate coverage or cover all risks. If any or all of our equipment is damaged in whole or in part, or if there is a loss of life of our employees, our operations may get

interrupted, totally or partially, for a temporary period. We do not maintain key-man insurance for any of our key personnel and loss of the services of such key personnel may have an adverse effect on our business, financial condition and results of operations.

There can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that our insurance policies will be adequate to cover the losses incurred. Notwithstanding the insurance coverage that we carry, we may not be fully insured against certain business risks such as the occurrence of an event that causes losses in excess of limits specified under the relevant policy or losses arising from events not covered by the insurance policies and insurance policies that we procure may not be adequate to cover all the risks associated with our business. Additionally, there may be various other risks and losses for which we are not insured because such risks are either uninsurable or not insurable on commercially acceptable terms.

Our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at an acceptable cost or at all. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance or exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial condition may be adversely affected.

37. *Our Company has not paid any dividends in the past and we may not be able to pay dividends in the future.*

Our Company has not declared dividends for any financial year in the past and our Company may not be able to declare dividends in the future. The declaration, payment and amount of any future dividends is subject to the discretion of the Board and Shareholders, and will depend upon various factors, inter alia, our earnings, financial position, capital expenditures and availability of profits, restrictive covenants in our financing arrangements and other prevailing regulatory conditions from time to time. Any of these factors may thus restrict our ability to pay dividends in the future. If we are unable to pay dividends in the future, realization of a gain on Shareholders' investments will depend on the appreciation of the price of the Equity Shares. There is no guarantee that our Equity Shares will appreciate in value.

38. *There is no monitoring agency appointed by Our Company to monitor the utilization of the Offer proceeds.*

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Offer size above ₹ 10,000.00 Lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Offer proceeds. However, the audit committee of our Board will monitor the utilization of Offer proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Offer proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

39. *Industry information included in this draft prospectus has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.*

These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Draft Prospectus.

40. ***We have not identified any alternate source of raising the funds required for the object of the Offer and the deployment of funds is entirely at our discretion and as per the details mentioned in the section titled "Objects of the Offer"***

Our Company has not identified any alternate source of funding for our object of the Offer and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Offer proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds could result in inadequacy of funds or may result in borrowing funds on unfavorable terms, both of which scenarios may affect the business operation and financial performance of the company. Further the deployment of the funds raised in the Offer will be entirely at the discretion of the management and any revision in the estimates may require us to reschedule our projected expenditure and may have a bearing on our expected revenues and earnings. For further details of Please refer chapter titled "**Object for the Offer**" beginning on page 71 of this Draft Prospectus.

41. ***Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.***

Any future equity issuances by our Company may lead to the dilution of investors' shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Offer, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

42. ***We are subject to risks arising from interest rate fluctuations, which could adversely impact our business, financial condition and operating results.***

Changes in interest rates could significantly affect our financial condition and results of operations. If the interest rates for future borrowings increase significantly, our cost of servicing such debt will increase. This may negatively impact our results of operations, planned capital expenditures and cash flows.

43. ***We have in the last 12 months issued Equity Shares at a price that may be at lower than the Offer Price.***

In the last 12 months we may have issued fresh Equity Shares to the promoters and other shareholders of our Company. The Equity Shares allotted to investors pursuant to this Offer is being priced significantly higher due to various reasons including better performance by the Company, better economic conditions and passage of time. For Further details of equity shares issued, please refer to the chapter titled "**Capital Structure**" beginning on page 58 of the Prospectus.

44. ***The average cost of acquisition of Equity Shares by our Promoters could be lower than the Offer Price.***

Our Promoters average cost of acquisition of Equity Shares in our Company is lower than the Offer Price decided by the Company in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapters "**Capital Structure**" beginning on page 58 of this Draft Prospectus.

EXTERNAL RISK FACTOR

45. ***The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.***

Prior to this Offer, there has been no public market for our Equity Shares. Our Company and the Lead Manager has appointed [•] as Designated Market Maker for the equity shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Offer due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets and Finance industry, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnership, joint ventures, or capital commitments.

46. ***You will not be able to sell immediately on Indian Stock Exchanges any of the Equity Shares you purchase in the Offer until the Offer receives appropriate trading permissions.***

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading on stock exchange. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Draft Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, if the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

47. ***Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities may differ from those that would apply to a company in another jurisdiction. Investors may have more difficulty in asserting their rights as shareholders in an Indian company than as shareholder of a corporation in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other jurisdictions. Under the Companies Act, prior to issuance of any new equity shares, a public limited company incorporated under Indian law must offer its equity shareholders pre-emptive rights to subscribe to a proportionate number of equity shares to maintain existing ownership, unless such pre-emptive rights are waived by a special resolution by a three-fourths majority of the equity shareholders voting on such resolution. If you are a foreign investor and the law of the foreign jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such foreign jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file an offering document or a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interest in our Company would decline.

48. ***There is no guarantee that the Equity Shares issued pursuant to the Offer will be listed on the SME Platform of BSE Limited in a timely manner, or at all.***

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Offer will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE Limited. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

49. ***Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse impact on our business, financial condition and results of operations.***

Taxes and other levies imposed by the Central or State Governments in India that impact our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. There can be no assurance that these tax rates/slab will continue in the future. Further, with the Introduction of the Goods and Services Act, tax rates and its implication may have material impact on our products. Any changes in these tax rates/slabs could adversely affect our financial condition and results of operations.

50. ***The Offer Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Offer and the market price of our Equity Shares may decline below the Offer Price and you may not be able to sell your Equity Shares at or above the Offer Price.***

The Offer Price of our Equity Shares has been determined on the basis of the Fixed Price Issue. This price is based on numerous factors. For further information, see "***Basis for Offer Price***" beginning on page 77 of this Draft Prospectus and may not be indicative of the market price of our Equity Shares after the Offer. The market price of our Equity Shares could be subject to significant fluctuations after the Offer and may decline below the Offer Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Offer Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

51. ***Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

52. ***Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.***

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, change in regulatory framework, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends, terrorist threats and activities, worldwide military and domestic disturbances and conflicts, and other matters that influence consumer confidence, spending and tourism.

53. ***Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance.***

Certain events that are beyond our control such as earthquake, fire, floods and similar natural

calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

54. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

The Covid-19 pandemic had brought the world to a standstill affecting all sectors and the livelihood of many are at stake including the Indian economy. However, our Country is achieving normalcy by various measures taken by the Government. The pandemic is still to be controlled and any major outbreak will seriously impact our business. Further, our Country in the past has experienced natural calamities such as earthquakes, tsunami, floods etc. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

55. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

56. *A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.*

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of us. Under the takeover regulations in India, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the Indian takeover regulations.

57. *The requirements of being a listed company may strain our resources and distract management.*

We have no experience as a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur additional legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing agreements with the Stock Exchanges and compliances of SEBI Listing Regulation, 2015 which would require us to file audited annual and unaudited semi-annual and limited review reports with respect to our business and financial condition. If we delay making such filings, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures, internal control over financial reporting and additional compliance requirements under the Companies Act, 2013. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management oversight will be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. In addition, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner.

58. *We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.*

Our growth is dependent on having a balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company's Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company's Equity Shares. Additionally, the disposal, pledge or encumbrance of Equity Shares by any of our Company's major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

59. *Our business is substantially affected by prevailing economic, political and other prevailing conditions in India.*

Our Company is incorporated in India, and the majority of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- the macroeconomic climate, including any increase in Indian interest rates or inflation;
- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- Any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- Prevailing income conditions among Indian consumers and Indian corporations;

- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- occurrence of natural or man-made disasters;
- prevailing regional or global economic conditions, including in India's principal export markets;
- other significant regulatory or economic developments in or affecting India or its ER&D sector; international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;

60. *Financial instability, economic developments and volatility in securities markets in other countries may also cause the price of the Equity Shares to decline.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, particularly emerging Asian market countries. Financial turmoil in Europe and elsewhere in the world in recent years has affected the Indian economy. In recent times, the Indian financial markets had been negatively affected by the volatility in global financial market, including on account of certain European nations' debt troubles and move to break away by the United Kingdom from the European Union. Although, economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. Currencies of a few Asian countries have in the past suffered depreciation against the U.S. Dollar owing to, amongst other, the announcements by the U.S. government that it may consider reducing its quantitative easing measures. A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur and could harm our business, future financial performance and the prices of the Equity Shares.

The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections in recent years. Liquidity and credit concerns and volatility in the global credit and financial markets have increased significantly with the bankruptcy or acquisition of, and government assistance extended to, several major U.S. and European financial institutions. These and other related events, such as the European sovereign debt crisis, have had a significant impact on the global credit and financial markets as a whole, including reduced liquidity, greater volatility, widening of credit spreads and a lack of price transparency in global credit and financial markets. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets.

However, the overall impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. In the event that the current difficult conditions in the global credit markets continue or if there is any significant financial disruption, such conditions could have an adverse effect on our business, future financial performance and the trading price of the Equity Shares.

Global Economic Overview

Global growth is projected to slowdown from an estimated 6.1% in 2021 to 3.6% in 2022 and 2023. This is 0.8% points and 0.2% points lower for 2022 and 2023 than in the January World Economic Outlook Update. Beyond 2023, global growth is forecast to decline to about 3.3 percent over the medium term. The revision made for 2023 is due to assumption that the conflict remains confined to Ukraine, further sanctions on Russia exempt the energy sector (although the impact of European countries' decisions to wean themselves off Russian energy and embargoes announced through March 31, 2022, are factored into the baseline), and the pandemic's health and economic impacts abate over the course of 2022.

Advanced Economies Group

The forecast for the United States was already downgraded in January, largely reflecting non-passage of the Build Back Better fiscal policy package and continued supply chain disruptions. The additional 0.3% point forecast markdown for 2022 in the current round reflects faster withdrawal of monetary support than in the previous projection—as policy tightens to rein in inflation—and the impact of lower growth in trading partners because of disruptions resulting from the war. The forecast for Canada is marked down 0.2% point, reflecting the withdrawal of policy support and weaker external demand from the United States, which outweigh the lift from favorable terms of trade effects. The main channel through which the war in Ukraine and sanctions on Russia affect the euro area economy is rising global energy prices and energy security. Because they are net energy importers, higher global prices represent a negative terms-of-trade shock for most European countries, translating to lower output and higher inflation. Euro area GDP growth in 2022 is revised down to 2.8% (1.1% points lower than in January), with the biggest downgrades in economies such as Germany and Italy with relatively large manufacturing sectors and greater dependence on energy imports from Russia. Across the euro area, the hit to activity is partially offset by increased fiscal support. In the United Kingdom, GDP growth for 2022 is revised down 1% point—consumption is projected to be weaker than expected as inflation erodes real disposable income, while tighter financial conditions are expected to cool investment.

Emerging Market and Developing Economies Group

Emerging and Developing Europe, including Russia and Ukraine, will see GDP contract by approximately 2.9% in 2022, before expanding by 1.3% in 2023. The main drivers of the contraction are the impact of higher energy prices on domestic demand and the disruption of trade, especially for Baltic States, whose external demand will decline along with the contraction in Russia's economy. The influx of refugees is expected to place significant immediate pressure on social services, but eventually the increase in the labor force could help medium-term growth and tax revenues. Developments in China continue to dominate the outlook for Asia, especially for emerging Asia. As noted, the combination of more transmissible variants and the strict zero-COVID strategy in China has led to repeated mobility restrictions and localized lockdowns that, together with an anemic recovery in urban employment, have weighed on private consumption. Notable downgrades to the 2022 forecast include India (0.8% point), reflecting in part weaker domestic demand—as higher oil prices are expected to weigh on private consumption and investment—and a drag from lower net exports. Countries in the Middle East, North Africa, Caucasus, and Central Asia regions are highly exposed to global food prices, particularly the price of wheat, which is expected to remain high throughout the year and into 2023. In the Middle East and North Africa, spillovers from tighter global financial conditions, reduced tourism, and secondary demand spillovers (for example, from Europe) will also hold back growth. Overall, GDP in the Middle East and Central Asia is expected to grow by 4.6% in 2022. In sub-Saharan Africa, food prices are also the most important channel of transmission, although in slightly different ways. Wheat is a less important part of the diet, but food in general is a larger share of consumption. Higher food prices will hurt consumers' purchasing power—particularly among low-income households—and weigh on domestic demand. Social and political turmoil, most notably in West Africa, also weigh on the outlook. Overall, growth in sub-Saharan Africa is projected at 3.8% in 2022.

Indian Economy Overview

INTRODUCTION

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

MARKET SIZE

- India's nominal gross domestic product (GDP) at current prices is estimated to be at ₹232.15 trillion (US\$ 3.12 trillion) in FY2021-22.,

- India is the third-largest unicorn base in the world with more than 100 unicorns valued at US\$ 332.7 billion as per the Economic Survey.
- India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between this period. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 1.2% of GDP in 2021-22.
- Exports fared remarkably well during the pandemic and aided recovery when all other growth engines lost steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS

Recent economic developments in India are as follows:

India is primarily a domestic demand-driven economy, with consumption and investments contributing 70% to the country's economic activity. With the economic scenario improving on recovering from the COVID-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also launching growth-oriented policies to boost the economy. In view of this, the country witnessed many developments in the recent past, some of which are mentioned below:

- As of July 15, 2022, India's foreign exchange reserves reached US\$ 572.71 billion.
- Private equity-venture capital (PE-VC) sector investments stood at US\$ 34.1 billion, up 28% YoY, across 711 deals through January-June 2022.
- India's merchandise exports stood at US\$ 676.2 billion in FY22. In June 2022, India's merchandise exports stood at US\$ 37.9 billion, recording the highest ever exports in June 2022.
- PMI Services was at 58.9 in May 2022 compared to 57.9 in April 2022
- In June 2022, the gross Goods and Services Tax (GST) revenue collection stood at ₹1.44 trillion (US\$ 18.1 billion).
- According to the Department for Promotion of Industry and Internal Trade (DPIIT), FDI equity inflow in India stood at US\$ 588.53 billion between April 2000-March 2022.
- In May 2022, the Index of Industrial Production (IIP) stood at 137.7 driven by mining, manufacturing and electricity sectors.
- Consumer Price Index (CPI) inflation stood at 7.01% in June 2022 compared to 7.04% in May 2022.
- In July 2022 (until 21 July 2022), Foreign Portfolio Investment (FPI) outflows stood at ₹228,862 crore (US\$ 28.65 billion)
- Wheat procurement in Rabi 2021-22 and anticipated paddy purchase in Kharif 2021-22 would include 1208 lakh (120.8 million) metric tonnes of wheat and paddy from 163 lakh (16.7 million) farmers, as well as a direct payment of MSP value of ₹2.37 lakh crore (US\$ 31.74 billion) to their accounts.

ROAD AHEAD

Despite continuing geopolitical concerns, rising interest rates in the US and India and high prices of crude oil and few other commodities, economic activity in India is holding up better than anticipated. Electricity consumption, manufacturing PMI, exports, power supply and other high-frequency indicators indicate that the pace of economic activity has fully recovered from the COVID-19 pandemic shock. Economic growth is anticipated to be fueled by the effective implementation of PLI schemes, development of renewable energy sources while diversifying import dependence on crude oil and bolstering of the banking sector. Recent government initiatives to boost revenue will aid in containing the rise in the current account deficit and ensure that any potential fiscal slippage is adequately contained. Overall, the first ten days of July and June were better than the first two months of FY 2022-23, which is a cause for comfort and even cautious optimism in these testing times. According to a Boston Consulting Group (BCG) analysis, India is expected to be the third-largest consumer economy as its consumption may quadruple to US\$ 4 trillion by 2025 due to changes in consumer behaviour and spending patterns.

Overview of Indian Electronics and IT Hardware sector

India, considered a popular manufacturing hub, has grown its domestic electronics production from US\$ 29 billion in 2014-15 to US\$ 67 billion in 2020-21. The electronics sector of India contributes around 3.4% of the country's Gross Domestic Product (GDP). The government has committed nearly US\$ 17 billion over the next six years across four PLI Schemes: Semiconductor and Design, Smartphones, IT Hardware and Components.

Recently, the Ministry of Electronics & Information Technology released the second volume of the Vision document on Electronics Manufacturing in India, which stated that the electronics manufacturing industry will grow from the current US\$ 75 billion in 2020-21 to US\$ 300 billion by 2025-26. The major products that are expected to drive growth in India's electronics manufacturing are mobile phones, IT hardware (laptops, tablets), consumer electronics (TV and audio), industrial electronics, auto electronics, electronic components, LED lighting, strategic electronics, printed circuit board assembly (PCBA), wearables and hearables, and telecom equipment. Mobile manufacturing is expected to cross US\$ 100 billion in annual production growth from the current US\$ 30 billion by accounting for nearly 40% of the industry growth.

The IT sector in India is one of the largest contributors with a 9% contribution to GDP. The industry is around US\$ 194 billion and is expected to surpass US\$ 300-350 billion by 2025. India's IT industries and companies are majorly located in the southern regions such as Bangalore, Hyderabad, Chennai, Visakhapatnam, Trivandrum, Mysore, Mangalore, Kochi, etc. The country's major information technology hubs are Mumbai, Pune, Delhi, etc. sources: <https://www.ibef.org/exports/electronic-and-computer-software-industry-in-india>

- Production of mobile handsets is further slated to increase in value from \$ 30 Mn in FY 21 to \$ 126 Mn in FY 26.

- India produces roughly 10 mobile phones per second which amounts to ~\$ 930 worth of production every second.
- India's semiconductor market is expected to increase from ~\$ 15 Bn in FY20 to ~\$ 110 Bn in FY30, growing at a CAGR of 22%
- 100% FDI is allowed under the automatic route. In the case of electronics items for defence, FDI up to 49% is allowed under automatic route and beyond 49% through the government approval.

Electronic goods have emerged as a major component in India's merchandise imports and have been driven by telecom instruments. Within telecom instruments, the imports of mobile phone parts have been the major contributor from 2015-16 onwards and coincidentally mobile phone imports have trended down. This is corroborated by a close examination of component wise imports and domestic production of telecom instruments which point towards an increasingly higher domestic value addition in recent years. This move from essentially consumption driven imports to production induced imports has largely been conditioned by the policy impulses to increase domestic production which is a desirable outcome against the backdrop of high domestic demand.

Key segments in the Indian electronics hardware sector

The Indian Electronics and IT Hardware sector has 6 key segments, namely Consumer Electronics, Industrial Electronics, IT Hardware, Telecommunication Equipment, Electronic Components, and Strategic Electronics. Consumer Electronics and Telecom Equipments are the largest segments with about 27% share each in total production. Telecommunication Equipment and IT Hardware are the fast-growing segments with CAGR (FY 2002 to 2008) of 21% and 29% respectively. These segments have witnessed high growth rates due to the advent of IT and growth in the Indian Telecom Industry. The share of the segments in exports has remained largely unchanged from 2003. Electronic components constitute the major proportion of exports with a share of 45% in FY 2008.

Consumer Electronics

Consumer Electronics has traditionally been largest segment in the Electronic and IT Hardware industry. It contributes to roughly 28% of the industry production of Electronics in the country. The segment had an estimated turnover of ₹260 billion in 2009.

Consumer electronics comprises of products like audio and video systems, set top boxes (STB), washing machines, air conditioners and mixer amongst others.

The colour television (CTV) segment is the largest contributor to the Consumer Electronics segment with estimated sales of over 15 million units FY 2008. While Flat TV accounts for 55% of domestic TV production, hi-end products, particularly LCD TV and Plasma TV are gaining popularity. Sales of STB have increased at over 85% in the recent past.

The air conditioner (AC) market has seen steady growth with a strong preference for split AC units over window AC units. Split ACs account for about 64% of sales of ACs (in value terms).

DVD players segment continued to grow with sales of 7 million units in FY 2007 to 2008. Introduction of CAS and expansion of DTH has fuelled demand in STB and home theatre segments. Apart from manufacturing, the functions of marketing, sales and distribution are major components in the value chain in Consumer Electronics. After-sales support and spare parts sales are continuous sources of revenue in consumer durables such as washing machines, water purifiers, lifts, and ACs. Most manufacturers offer annual maintenance contracts to consumers. Despite the recent economic downturn, the Consumer Electronics Industry has been on a growth path and is expected to achieve sales growth of 15% over the previous year and clock ₹260 billion in revenues in 2009.

OVERVIEW OF KEY ELECTRONIC PRODUCTS

The various segment of Electronic and IT Hardware are as follows:

Mobile Phones

India has become the second largest mobile handset manufacturing nation globally and India has also become the second largest smart phone market in the world thus making India as the fastest growing smart phone market in the world. Production of mobile phones has increased at a CAGR of 30% from 60 million units in FY15 to 290 million units in FY21; thus, making the domestic manufacturing of cellular mobile handsets and its subassemblies/parts and components as one of the flagship sectors under the 'Make in India' initiative of the Government.

Consumer Electronics

Consumer electronics refers to any device containing an electronic circuit board that is intended for everyday use by individuals for the purpose of entertainment, recreation or communication. This encompasses a massive category of electronic products which includes televisions, cameras, digital cameras, calculators, VCRs, DVDs, clocks, audio devices, headphones, and many other home products. Key drivers for this market's growth are growing awareness, easier access, changing lifestyle, higher disposable income and reduction in the per unit prices. India produced ₹705.1 billion worth of consumer electronics domestically during FY21.

Electronic Components

The global market for electronic components is expected to reach USD 191.8 billion by 2022, of which the Asia Pacific region is going to capture a dominant share. Following this global trend, the Indian electronic components market is also poised to grow significantly. India produced ₹668.0 billion worth of electronic components domestically during FY21. Mobile Phones, Consumer Electronics and Industrial Electronics account for the major demand (82%) for electronic components in India. This is followed by the demand of electronic components in computer hardware, strategic electronics and lighting industry sector. Industries like Mobile Phones, Industrial Electronics (due to the advent of EVs) and Strategic Electronics are expected to witness substantial growth in the near future.

Sales in desktops are recording much lesser growth (6%) as compared to laptops (growing at well over 100%) in the last three years. Till recently, this segment was dominated by local assemblers and some branded Indian companies. A number of MNCs (such as Compaq, HP, IBM, and ACER) are now assembling PCs locally and have started focusing on satellite towns and cities for sales. Wipro and Zenith are the domestic market leaders.

Increasing incomes, education requirements, e-Governance initiatives, Common Service Centre (CSC) schemes, and the penetration of internet and broadband services have fuelled the demand in this sector. This segment was dominated by local assemblers and some branded Indian companies until recently. A number of MNCs (such as Compaq, HP, IBM, DELL and ACER) have entered the Indian space.

GOVERNMENT INITIATIVES

Since 2014, the Government of India has announced various initiatives, namely Digital India, Make in India, Start-up India, Skill India and Innovation Fund. The timely and effective implementation of such programs will likely support growth of E-commerce in the country. Some of the major initiatives taken by the Government to promote E-commerce in India are as follows:

- As of June 8 2022, the Government e-Marketplace (GeM) portal served 10.35 million orders worth ₹258,359 crore (US\$ 33.07 billion) to 60,632 buyers from 4.56 million registered sellers and service providers.
- In a bid to systematise the onboarding process of retailers on e-commerce platforms, the Department for Promotion of Industry and Internal Trade (DPIIT) is reportedly planning to utilise the Open Network for Digital Commerce (ONDC) to set protocols for cataloguing, vendor discovery and price discovery. The department aims to provide equal opportunities to all marketplace players to make optimum use of the e-commerce ecosystem in the larger interest of the country and its citizen.
- National Retail Policy: The government had identified five areas in its proposed national retail policy—ease of doing business, rationalisation of the licence process, digitisation of retail, focus on reforms and an open network for digital commerce—stating that offline retail and e-commerce need to be administered in an integral manner.
- The Consumer Protection (e-commerce) Rules 2020 notified by the Consumer Affairs Ministry in July directed e-commerce companies to display the country of origin alongside the product listings. In addition, the companies will also have to reveal parameters that go behind determining product listings on their platforms.
- Government e-Marketplace (GeM) signed a Memorandum of Understanding (MoU) with Union Bank of India to facilitate a cashless, paperless and transparent payment system for an array of services in October 2019.
- Under the Digital India movement, Government launched various initiatives like Umang, Start-up India Portal, Bharat Interface for Money (BHIM) etc. to boost digitisation.
- In October 2020, Minister of Commerce and Industry, Mr. Piyush Goyal invited start-ups to register at public procurement portal, GeM, and offer goods and services to government organisations and PSUs.
- In October 2020, amending the equalisation levy rules of 2016, the government mandated foreign

companies operating e-commerce platforms in India to have permanent account numbers (PAN). It imposed a 2% tax in the FY21 budget on the sale of goods or delivery of services through a non-resident e-commerce operator.

- In order to increase the participation of foreign players in E-commerce, Indian Government hiked the limit of FDI in E-commerce marketplace model to up to 100% (in B2B models).
- Heavy investment made by the Government in rolling out fiber network for 5G will help boost E-commerce in India.

ROAD AHEAD

The E-commerce industry has been directly impacting micro, small & medium enterprises (MSME) in India by providing means of financing, technology and training and has a favourable cascading effect on other industries as well. Indian E-commerce industry has been on an upward growth trajectory and is expected to surpass the US to become the second largest E-commerce market in the world by 2034. Technology enabled innovations like digital payments, hyper-local logistics, analytics driven customer engagement and digital advertisements will likely support the growth in the sector. The growth in the E-commerce sector will also boost employment, increase revenues from export, increase tax collection by exchequers, and provide better products and services to customers in the long term. The rise in smartphone usage is expected to rise 84% to reach 859 million by 2022.

The e-retail market is expected to continue its strong growth - it registered a CAGR of over 35% to reach ₹1.8 trillion (US\$ 25.75 billion) in FY20. Over the next five years, the Indian e-retail industry is projected to exceed ~300-350 million shoppers, propelling the online Gross Merchandise Value (GMV) to US\$ 100-120 billion by 2025.

According to Bain & Company report, India's social commerce gross merchandise value (GMV) stood at ~US\$ 2 billion in 2020. By 2025, it is expected to reach US\$ 20 billion, with a potentially monumental jump to US\$ 70 billion by 2030, owing to high mobile usage.

Legal Metrology Act, 2009 ("LM Act") and the Legal Metrology (Packaged Commodities) Rules, 2011("Packaged Commodity Rules")

The LM Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number. The LM Act and rules framed thereunder regulate, *inter alia*, the labelling and packaging of commodities, appointment of government-approved test centres for verification of weights and measures used, and lists penalties for offences and compounding of offences under it. Any non-compliance or violation under the LM Act may result in, *inter alia*, a monetary penalty on the manufacturer or seizure of goods or imprisonment in certain cases. The Packaged Commodity Rules define "pre-packaged commodity" as a commodity which without the purchaser being present is placed in a package of a pre-determined quantity. The Packaged Commodity Rules prescribes the regulations for imports, pre-packing and the sale of commodities in a packaged form intended for retail sale, wholesale and for export and import, certain rules to be adhered to by importers, wholesale and retail dealers, the declarations to be made on every package, the size of label and/or importers and the manner in which the declarations shall be made, etc. These declarations that are required to be made include, *inter alia*, the name and address of the manufacturer, the dimensions of the commodity, the maximum retail price, generic name of the product, the country of origin and the weight and measure of the commodity in the manner as set forth in the Packaged Commodity Rules. Demands for specifying the Country of Origin ("**COO**") of products sold online has gained ground in view of Prime Minister's vision "Make in India". The Government had asked e-commerce entities to adhere to the Packaged Commodity Rules and display Country of Origin of products listed on their platform/s by August 01, 2020. In the recently draft of proposed amendment to the Consumer Protection (E-Commerce) Rules, 2020, *inter alia*, requires and e-commerce entity that offers imported goods or services for sale, to identify goods based on their country of origin, provide a filter mechanism on their e-commerce website and display notification regarding the origin of goods at the pre-purchase stage, at the time of goods being viewed for purchase, suggestions of alternatives to ensure a fair opportunity for domestic goods and further to provide ranking for goods and ensure that the ranking parameters do not discriminate against domestic goods and seller.

Due to the Lockdown (caused because of the Pandemic) in the country in the first quarter of the year, the office was closed and as a result multiple accounting entries relating to the E-Commerce Business were not passed on timely basis in the books of accounts. Sufficient Details regarding to ageing of the debtors of the E-Commerce business were not available with the Company, resulting in improper bifurcation of debtors between Debtors (less than 90 days) and Debtors (more than 90 days).

Final data was not available with the Company regarding the business done through the E-Commerce business partner at the time of submitting the DP statement to the bank. The Sales and trade receivables from the E-Commerce business for the purpose of DP statement were calculated by the Company on the basis of data available at that time, however the final data received later on from the E-Commerce business partner on basis of which the books of accounts are reconciled and updated accordingly, because of which the actual figures as per books and as per the DP statements vary.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued a circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019, circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 and circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (collectively the "**UPI Circulars**") in relation to streamlining the process of public issues of equity shares and convertibles. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI circular proposes to introduce and implement the UPI payment mechanism in three phases in the following manner:

Phase I: This phase has become applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Investor had the option to submit the Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and the continuation of this phase has been extended until March 31, 2020. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Further, pursuant to SEBI circular dated March 30, 2020, this phase has been extended till further notice.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.

All SCSBs issuing facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Investors into the UPI payment mechanism.

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Applicants to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law.

For further details, refer to the General Information Document available on the websites of the Stock Exchange and the Lead Manager.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The responsibility of granting approval for foreign investment under the Consolidated FDI Policy and FEMA has been entrusted to the concerned ministries / departments.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry (formerly Department of Industrial Policy and Promotion), Government of India ("DPIIT") issued the Consolidated FDI Policy, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. However, under the current FDI Policy, 51% foreign direct investment is permitted in multi-brand retail trading sector, under the government approval route, subject to compliance with certain prescribed conditions, therefore the business of our Company falls under the restricted route of investment under the FDI Policy and is subject to prior government approval.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that: (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations, (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI policy, and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI / RBI.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country ("Restricted Investors"), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Each Applicant should seek independent legal advice about its ability to participate in the Offer. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Applicant shall intimate our Company and the Registrar to the Offer in writing about such approval along with a copy thereof within the Offer Period.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States, and unless so registered may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, such Equity Shares are being offered and sold (i) outside of the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company, the Selling Shareholders and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
